

Mounting perfect Christmas presentation

Sending family photographs at Christmas is a tradition which keeps many studios busy with reprint orders.

Prints make a more valued gift if they are mounted and sleeved beautifully. Slip-in mounts from Cotswold Mounts, ideal for smaller postage-friendly print sizes, make loose prints ready to display or frame. Combined with clear sleeving or a bag for the mount, and card envelope if needed for posting, they are a great gift idea to put forward at this time.

Cotswold Mounts also sell the range of Fotospeed inkjet papers, including ready-creased special formats both conventional and panoramic for printing greetings (or other) cards. These are supplied with matching envelopes and instructions for printing either single or double sided.

For further information visit the website or phone.
